## WHAT TO EXPECT

# BENEFITS & DETAILS

Support is where a great franchise truly shines. That means proven operational guidelines, training, marketing initiatives, and the ability to provide products or services with momentum and popular demand already in place, not to mention solidarity and assistance from owners' groups.

Eligible candidates must have a minimum of \$50,000 in available capital for investment and at least 15 years of relevant life experience.

Worthwhile franchisors are careful about choosing someone to invest in, just as you are in choosing a franchise.
